

Umezina John

Data Analyst

Abuja, FCT | 07082781205 | jhonumezinwa@gmail.com | [Linkedin](#) | [Portfolio](#)

Data and Monitoring & Evaluation (M&E) professional with 2+ years of experience designing data systems, evaluation frameworks, and analytics pipelines within public sector, health, nonprofit, and digital innovation ecosystems. Currently working at the government sector for digital innovation, where I lead programme performance tracking, dashboard development, startup ecosystem analytics, and policy-relevant evidence generation.

Combines a scientific foundation in veterinary public health and epidemiology with applied expertise in Python, R, SQL, and BI tools to build robust data pipelines, strengthen M&E systems, and translate complex datasets into actionable policy insights.

SKILLS

Technical: Excel, Google Sheets, SQL, R (Statistical testing, Regression analysis), Power BI, Looker, Python (pandas, numpy, matplotlib), Data modeling, BigQuery, Google app-script, Automation, Data visualization

Professional: Project management, Research, Report Writing, Monitoring & Evaluation, Data Auditing & Quality Assurance.

PROFESSIONAL EXPERIENCE

Data & M&E Analyst

Office for Nigerian Digital Innovation (ONDI)

FCT, Abuja.

Jun 2025 – Present

- Designed and implemented an automated M&E analytics system tracking 150+ startups across 37 innovation hubs, **monitoring 10+ impact indicators** across baseline–midline–endline phases; enabled 200+ jobs created, **40% revenue growth**, 20+ partnerships developed, and reduced reporting **turnaround time by 70%**.
- Built end-to-end data pipelines (collection, validation, transformation, visualization) **using BigQuery** for startup and hub performance tracking.
- Conducted structured EDA on stakeholder feedback and programme data, improving data completeness by ~30% and increasing analysis accuracy across reporting cycles.
- Developed an interactive Looker Studio dashboard for senior leadership, **reducing KPI review time by ~40%** and enabling faster evidence-based decisions.
- Performed spatial and sectoral analysis to identify ecosystem gaps, informing targeted regional policy interventions.
- Led data auditing and quality assurance processes across implementing partners to ensure consistency and reliability of programme metrics.

Data Systems & Analytics Consultant

ServeLead Humanitarian Initiative

Abuja

Apr 2025 – Oct 2025

- Designed an **automated data pipeline** in Google Sheets and Apps Script processing 100+ nonprofit submissions weekly, **reducing manual workload by 80%**.
- Eliminated an estimated **8–12 hours** of manual review per week
- Scaled to handle **over 1000 respondents** per week
- Standardized evaluation criteria, **removing subjective bias** in qualification decisions
- Improved consultation efficiency through pre-call analytical reporting
- Implemented documentation workflows and transparency protocols to improve auditability and accountability.

- Analyzed B2B tech startup datasets using Power BI and Python, uncovering **\$18K in net losses**, \$10M revenue patterns, **48.2% conversion rates**, and discount-driven performance shifts that informed sales strategy and pipeline optimization.
- Conducted extensive EDA on conference registration data, revealing behavioral and timing trends that increased participant engagement and **improved event planning efficiency by 25%**.

RESEARCH AND PUBLICATIONS

Agina, O. A., Ezema, A. S., & Umezina, J. C. (2025).
The accuracy and precision of a portable refractometer in measuring plasma total protein concentrations in Nigerian trade cattle. Acta Veterinaria Hungarica, 73(1), 1–6. <https://doi.org/10.1556/004.2025.01166>

- Applied statistical testing, regression analysis, concordance correlation, and agreement analysis to evaluate diagnostic measurement accuracy.
- Contributed to study design, data analysis, interpretation, and manuscript preparation.

EDUCATION

Doctor of Veterinary Medicine (DVM)
University of Nigeria, Nsukka
Focus: Veterinary Public Health, Epidemiology, Biostatistics

ADDITIONAL TRAINING & CERTIFICATIONS

Data Analysis Practicum Program | Mayerfield Consulting | 2025
Forward Program | McKinsey Consulting | 2025
Data Science Lab | World Quant University | 2024
Monitoring & Evaluation Fundamentals | Global Health E-learning Centre | 2024

LEADERSHIP & DATA-DRIVEN PROJECTS

Local Organising Committee Chair **Enugu**
International Veterinary Students Association **2023**

- Collected and analyzed event participation data, tracked KPIs (attendance, satisfaction, logistical efficiency) to recommend improvements
- Leveraged digital tools for real-time reporting, resulting in a 70% increase in funds raised compared to previous years.

Organising Committee President (Recruitment) **Enugu**
AIESEC in Enugu **2023–2024**

- Led recruitment of 300+ participants using digital tracking and analysis tools to optimize candidate selection and onboarding efficiency.
